

Steel Tenon Adaptor for 4" Round Poles

Product Description:

-This adaptor allows you to convert the top of a round pole to a 2-3/8" tenon. Regardless of the gauge and material of the pole, bottom portion of this adaptor slides outside the pole (external fit). This tenon adaptor is made of steel and is available in a standard bronze finish however other powder coat finish options are available. Hot dip galvanizing is also available.
